Econometrics views (E-views), SPSS, LINDO (A Mathematical Programming Package), Lotus 123, Excel, Blackboard, Alpha systems

Country	Date from - Date to
Bahrain	2005-Ongoing
Jordan	1995-2005
UK	1987-1995
Iraq	1975-1986

10. Professional experience

Date from - Date to	Location	Company& reference person	Position	Description
02/1984-05/1986	Iraq	Ministry of Planning Agricultural Planning Authority office	Senior Researcher	<ul style="list-style-type: none"> Conducting studies of development the agricultural sector in the field of animal and plant production in order to develop the sector and increase its contribution to the GDP. Contribute to preparing the annual plan for the agricultural sector, as well as plans for the medium and long term, as well as following up the implementation of the annual plans with the relevant ministries, with field visits to determine the extent of implementing the annual plans.
04/1971-09/1975	Iraq	Ministry of Agriculture Cancelled Al-Khalis agricultural firm	Head of Agriculture Planning	<ul style="list-style-type: none"> Preparing annual plans for the organization's work area in the field of plant and animal production, preparing the human resource and land needed to implement the plans. Proposing the necessary financial allocations to help implement the plan in terms of providing agricultural seeds, chemical fertilizers, land reclamation, as well as developing irrigation networks.
2018	Iraq	GIZ Advisor SME & Start- Up Promotion Private Sector Development & Employment Promotion (PSD)/ Economic (Re-)Integration of Young People and Returnees zaid.abu- tabikh@giz.de	Economic Development Consultant	<p>Scoping assessment of the Agriculture sectors of Iraq, The mission consisted of studying the reality of the agriculture productive sectors in the governorates of Baghdad and Basra. Visits were made to the concerned departments in the two governorates, collecting information on existing projects, meeting with local leaders in the industrial and agricultural sectors, in addition to official employees, studying the most important obstacles to the development of the agricultural sector that prevent its growth and proposing plans and strategies that would raise the capacity and productivity of the sector in accordance with the comprehensive economic development vision. Emphasis was placed on proposing possible alternatives for developing the sectors in the field of utilizing human resources and natural resources. The study relied on data from the ministries of planning agriculture and civil society organizations and cooperative societies working in these sectors. The study concluded with a proposal to organize several training courses for the beneficiary units. Most of these courses focused on developing manpower in the field of using modern technology and proposing the production of new products that were not known to the agricultural and social sectors. The study suggested how to find outlets for marketing the products in a modern and attractive way to the consumer by proposing a supply chain for marketing complexes in addition to an attempt to open outlets for exporting these products abroad, especially in the Arab Gulf states.</p>
